Subject: FW: PFAS Dialogue - Governor Sununu quote

Hi Alex –

FYI, I spoke with doug about this on Friday – giving him a heads up that we may need help getting a quote from Governor Sununu for our PFAS press release today.

Thanks ng

Here's a quote from our new Executive Director.

"The states have been on the front lines of addressing PFAS issues, so ECOS is glad to see EPA recognize their urgency and engage the states early in its process. Many states cannot take action on PFAS issues until EPA makes a regulatory determination, and all states would like to see continued federal research and leadership in this area." Sambhav (Ssam) Sankar

Preston,

ECOS will absolutely provide a quote as we're very happy that EPA is getting so engaged in PFAS. I'll work with our new Executive Director Sam Sankar to develop a quote from him tomorrow if that works.

Hi Carolyn,

Hope you are having a good week! I wanted to let you know that the EPA is planning to host a "National Dialogue" in Washington this spring to address PFAS issues with various stakeholders. This will serve as an opportunity to engage with states and develop effective strategies for managing contaminants in drinking water and at federal facilities. The dialogue will inform a forthcoming PFAS Management Plan that the Agency will release later this year.

We are doing a press release at the end of the week to announce the initiative and would love to get a quote from ECOS. Would you be willing to provide us with something? Happy to chat further over the phone if need be.

Many thanks,

Preston
